

Self testing 100dB Evacuation Alert sounder/visual alarm device, red

Part No. **BF433C/EA/SR**

Overview

- Designed for use on a C-TEC CAST-powered EVAC-ALERT system.
- Provides audible and visual indication of an evacuation alert to help satisfy the requirements of the Equality Act.
- Impressive 100dBA sound output at 1m.
- Low 12.2mA alarm current (at 0.5Hz with sounder on max and indicator lit).
- IP21C rated.
- Designed to comply with EN54-3 and 23.
- Reliable hard-wired technology (for C-TEC's position on using wireless devices as part of an evacuation alert system / system of last resort [click here](#)).
- White version also available (order code BF433C/EA/SW).

More Information
