

*Code: ADP324-FR*

Power Supply | 24V DC | 500 mA | 178 X 110 X 68mm

The Deedlock power supply units are switch mode units either 12V or 24V DC voltage with load outputs from 1 to 5 amps. These cost effective units are ideal for use in access control or general security, intruder alarm or fire applications.

## Features & Benefits

- Microprocessor controlled
- On-demand battery charging
- Automatic output reconnect after short circuit fault
- Twin independent switched outputs
- Battery monitoring
- Over voltage protection
- Over current protection
- Fuse fault, standby and AC 'on' indicator

Company Registration Number: 5192024 | VAT Number: 309 0409 27

## Product Information

Type	Switch Mode
Low Voltage Stds	Low Voltage 2006/95/EC
EMC Standards	EMC 2004/108/EC
Range	Deedlock
Finish	White Boxed

## Technical Data

Ampere	500mA
Voltage Output	24V DC
Ripple	120mV max
Voltage Input	90-264V AC

## Housing

Dimension Height (mm)	178
Dimension Width (mm)	110
Dimension Depth (mm)	68
