

Two-Way Radio Break Glass Detector

Radio glass break detector designed with proven, pattern recognition technology. Suitable for use in quiet environments for 360-degree acoustic detection.

Scantronic Secure Radio (SSR) products feature advanced two-way communication and true signal encryption, ensuring market leading cybersecurity comes as standard. Over-the-air updates keep devices future-proof and reduce labour time onsite, whilst shortened device response times improve battery life and ensure rapid event notification, minimising false alarms.
