

Green Double Gang Backbox

ViAX-DBB-G

The ViAX-DBB-G is a green backbox designed for attractive, economical and easy surface mounting of Lexicomm Type B outstations.

Moulded from green polycarbonate plastic and made in the UK, it includes an earth connector and has knockouts for the easy connection of conduit and rear cable entry, and mouldings for rear screw holes.

The ViAX-DBB-G is supplied separately to our outstations. It replaces the ViLX-BSS-G.

Connections and Fixings:

- 1x double earth connector
- 3x conduit knockouts
- 1x rear entry knockout
- 4x rear mounting locations
- 2x screw connectors for mounting Vox Ignis products
