FX-WMS-006-CCF

PRODUCT GROUP
CommanderEDGE Extinguishers

DIMENSIONS (mm) (height x diameter)
501 x 160

WEIGHT
9.3kg

- Kitemarked to BS EN3
- Corrosion-resistant finish
- Plastic base skirt for protection
- Polyethene internal lining
- Europe manufacture
- 5-year warranty

WATER MIST FIRE EXTINGUISHERS

As well as being an environmentally friendly option, water mist fire extinguishers work by producing a mist curtain, which provides intense cooling to the fire, cutting off the supply of oxygen and suffocating the flames. The fine spray of water leaves less residue than many other fire extinguishers, making them a great choice for many applications including hospitals, commercial kitchens, museums and offices.

Technical Specification	FX-WMS-006-CCF
Capacity	6 litre
Fire Rating	13A 40F
Extinguishing Medium	Demineralised water
Working Pressure	15 bar at temp 20°C
Temperature Range	+5°-+60°C
Cylinder Material	Steel
Pressuring Gas	Nitrogen
